As a matter of fact, Sulphur is a natural element of hair and a deficiency of it in the hair is held by many scale specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scale troubles, especially premature granness, than Sage and Sulphur, if properly prepared.

The Wyoth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur are combined with other valuable remedies for keeping the hair and scale in clean, healthy condition. Anty Drudge on Cold Lunches.

Anty Drudge-"Why, Mr. Sorrowful, what makes you sit on John Serrowful-" I'm just waiting for Mary to hand me out a

bite of cold lunch. I never go in the house on washday, it smells like a bone mill." Anty Drudge-" Nonsense. Your wife washed with Fels-Naptha

soap to-day, and it was all done two hours ago. She has a nice hot lunch for you and had time to read and play the piano besides. And there's never any boily smell when Fels-Naptha's used." There was a woman who made a prayer

to be saved from washday with all its care. Then she tried Fels-Naptha and quit praying that particular prayer. It wasn't exactly washday that she meant. What she really did mean was to be saved from boiling clothes, with its resultant nauseous steam and heat, and from back-breaking hard rubbing.

Fels-Naptha answers that kind of petition completely, if you use it the Fels-Naptha way. Follow directions on

the red and green wrapper. For white clothes you'll read: Soap the clothes, roll and let them soak in cold or lukewarm water for 30 minutes. Then rub lightly, rinse, hang out on the line. No, you don't boil them; Fels-Naptha takes the place of that and hard rubbing, too.

Fels-Naptha has many other valuable uses-washing dishes for instance. You'll find directions for all on the wrapper. Be sure and follow them.
